Regular Product ID

Deluxe Product ID

The logo you upload here will appear on the top left hand side of your software when your buyers log in.

The background color will allow you to give it a good feel for your brand. But choose one that suits your dashboard. Create an account and log in to test.

Create TWO products in JVZoo, one for Premium and one for Regular (different price points)

Fill in the product IDs here.

In JVZoo, key in the IPN URL: <http://app.easybonusbuilder.com/jvz/ipn>

For App Name, FROM name and FROM email, it will be what your buyers will see in their email when they receive it after purchase.

6. For Custom Domain

In your DNS settings, create a CNAME for the domain you would like to use.

For the value, key in: app.easybonusbuilder.com

7. Help and Bonus Link URL

Key in your own URL for your help/support desk and the link to the bonuses you want to give to your buyers.

You are now ready to sell it!

Simply send your buyers to the JVZoo buy link.
